## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

I. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

A. Claims 1-3, 8-11, 13 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Ishida et al. US No. 6.027,124 ("Ishida").

I. Ishida discloses a multi-layer metal gasket (fig. 1) comprising a least one active layer (1) and at least one shim layer (2).

ii. The active layer (1) and shim layer (2) have annular portions (@ 4 AND 8) surrounding the combustion holes and tab (5) portions projecting radially outward from the annular portions (fig. 3).

iii. The annular portions underlie associated sealing beads of at least one of the active layers (fig. 1).

iv. The tab portions include a radially extending neck (6) region supporting a laterally bend tab (5) projecting through an associated set of laterally spaced mounting windows (formed by the associate recess).

v. The bend tab extends traverse to the neck region (i.e. it forms a 90 degree angle with the neck region)

Art Unit: 3676

- vi. The gasket may have two active layers (FIG. 6).
- vii. The shim (2) is joined to only one of the active layers (4) by the bend tab (as shown in FIG. 6).
- viii. The bend tab partially overlaps the active layer (Fig. 2).
- ix. The bend tabs are spaced (via neck portion) from the annular portions (fig. 2).

***Allowable Subject Matter***

II. Claim 4-7, 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

III. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Enoch E Peavey whose telephone number is 305 1977. The examiner can normally be reached on Mon-Fri 8:00 am to 4:30 am.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Judy Swann can be reached on (703) 306-4115. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
